

Conference Speakers:

With over 1,000 training events designed for accountants both in industry and practice, Mercia's comprehensive training programme has something for everyone. Running as live or on-demand events, our courses are accessible, relevant and informative, and our offering includes everything from public updates to highly bespoke internal training. Combine this with the promotional and technical support that Mercia has to offer and maintaining the expertise of your team has never been simpler!

Phil Frost, Technical Lecturer & Consultant, Mercia Group

Phil qualified in his hometown of Sheffield. He worked for Financial Training for a number of years and was their midlands regional director before joining Mercia in 2001. He lectures to the accounting profession and to those in industry and commerce on accounting, auditing, and related legal and regulatory topics as well as specialising in charity and property accounting together with international accounting standards.

In his spare time he now watches cricket and rugby as his playing days are behind him.

Norman Allison, Technical Lecturer & Consultant, Mercia Group

Norman rejoined the tax team at Mercia in 2009 having originally left the company back in 1997. During his time away from the business he spent ten years with H&R Block Inc dealing with tax affairs of a wide range of clients and managing a national project with Barclays Bank as well as presenting throughout Eastern Europe. He was also a senior Tax Manager in the heart of the City dealing with the tax affairs for a number of high profile and high net worth clients. Since coming back to the business Norman has focused on CPD training and technical updates for accountants all over the UK.

Originally from London (Walthamstow) and Essex (Clacton-on-Sea) but now living in both the Midlands and the glorious North Yorkshire Dales (Pateley Bridge) he is still an avid supporter of Spurs and still dabbles on his Nord and Korg keyboards.
